Student Information

- **Full name:** MANZI PRINCE Peter
- **Registration number:** 25/28149
- **Application name:** CMPortfolio
- **Verification code:** MOB-A2-8149

Declaration of Originality and Responsibility

I, MANZI PRINCE Peter, declare that this personal portfolio application is being developed and submitted as my individual coursework for SWE 3409 — Mobile Application Development.

I understand that I am responsible for the implementation, configuration, documentation, testing and submission of the application. I will ensure that the portfolio represents my genuine identity, skills, educational background, projects and personal contribution.

Where AI tools, tutorials, libraries or other external resources have assisted my work, I will acknowledge their use as required by the assessment instructions and institutional academic-integrity rules.

I will not knowingly claim that a feature works, a test passed, an APK was installed, or a project contribution was completed unless this is supported by my actual work and evidence.

I understand that the final submission must include the required source code, UI/UX documentation, evidence, GitHub repository and standalone Android APK.

I confirm that the information in this declaration is accurate to the best of my knowledge.
